

More Than That

By: Mia Bergmann

More Than That

I miss you every second of every day
I pray each night that something's gonna change
Cause you get and fall down and your back there on your knees
Standing here alone hoping begging please

Chorus:

Don't I mean more than that to you
Don't I mean more than what you're going through
Do I mean nothin'
Don't I mean something more than that
Don't you that I'm here for you
I live and breathe and cry for you
I'd give anything I just want you back
Don't I mean more than that

The water's deep but I can build a bridge
Cause you know there's a better way to live
And the heartache and the heartbreak keeps pulling us apart
I can lead you to the light but I can't stop the dark

Chorus

Did I do something wrong
I hate it when you're gone gone

Chorus

Don't I mean more than that
Don't I mean more than that
To you
