doing drugs ain't dope

Drugs (Drugs) yeah they mess with your mind
You think you're fine but you're really blind
'Cause you lose control and you start to throw
all your money down a hole
So come on, listen up now,
you just gotta tell 'em no
because doing drugs ain't dope
(Are you a dope?! You've got to be kidding me! Why are you doing that?)

Besides just living with rancid breath
every intake brings you closer to death
Hepatitis C and even HIV are just
aching to be received
So come on, listen up now,
you just gotta tell 'em no
because doin' drugs ain't dope

Yo heroin, tobacco, LSD
pot, coke, (They're a joke) and so is ecstasy, Man!
This feeling of a high is a straight-up lie,
'cause the only high that arises is in your chance to die
The result of using drugs without a prescription
is addiction, self-affliction, and additional blood constriction
So use some discretion to prevent an obsession
(Here's a lesson) There's no question that they cause stress and depression!

KEYTAR SOLO

Come on, listen up now, You just gotta tell 'em no
Because doing drugs—I say
Doing drugs—OH I SAY!
Do-ing Drugs Ain't
Dope!
