

## 2010 first place winner

Amanda Taylor

### WAKE UP!!!

(Intro)

Ohhh, yea, yea, yea, Wake Up and get it together

Lookin for a feeling to satisfy your taste

Mislead to believe that

Substance abuse is cool

Not realizing that the impact takes toll

On you and society

You don't wanna be a drug statistic teen

(Chorus)

Wake Up and Realize

The truth drugs have on you

Every second of your day

Should always feel brand new

Hold fast to your dreams and you will see it through

Nevertheless let it show how fly you can be

Stayin Drug Free.....

(2<sup>nd</sup> Verse)

I've seen it happen unexpectedly

Self esteem's shrinking low

Feel like no one understands

Turning this way searching that way

For a lucid motivation

But just look within yourself potential lies within you.

(Chorus 2x)

Wake up

And realize the truth drugs have on you

Every second of your day

Should always feel brand new

Hold fast to your drams

And you will see it through

Nevertheless let it show

How fly you can be stayin

Drug Free....

(Break)

*Look, statistics show that about 30 percent of adolescent suicides are attributed to depression that have been aggravated by drug and alcohol abuse...Understand that the good feeling you get for that moment won't be worth a life of addiction waking up to the fact that a substance controls how you feel emotionally, what you think mentally, and how your body functions and operates physically...Our society needs more people like you to be a positive example and not be a product of our environment...So just wake up!*
