

Peace

***The Children are crying
There's so many dying
Peace my brother peace***

***We can't let them die
We've got to try
Bring peace my brother peace***

***I don't care what color that you are
I don't care what place you come from
all we need is your heart
and your helping hand
together we'll make a stand***

***Children are dying
We've got to keep trying
Peace my brother peace
Peace my brother peace....peace.....***
